PROJECT DESCRIPTION: _____

This report should include information to all of the questions listed below. Use additional sheets and include attachments as necessary.

1. Is the project on schedule and are all of the goals being achieved?
2. Provide the percentage completion of each task listed in the proposal and any pertinent information on the status of the project.
3. Are there any difficulties or challenges occurring that may cause the schedule to slip?
4. On a separate sheet of paper, provide a detailed description of the monitoring systems you have designed and implemented to gather data to calculate motor vehicle emissions reductions, vehicle miles traveled (VMT) reductions, trip reductions, or qualitative benefits (in the case of public education and demonstration projects) to air quality. Please provide samples of your data gathering forms or surveys.
