

REGULATION V
PERMIT TO OPERATE REGULATIONS

Rule 507 **Responsibility**

The fact that a Permit to Operate for an article, machine, equipment, or other contrivance described therein shall have been issued by the Air Pollution Control Officer shall not be an endorsement of such article, machine, equipment, or other contrivance; neither shall it be deemed or construed to be a warranty, guarantee or representation on the part of the Air Pollution Control Officer that emission standards would not be exceeded by such article, machine, equipment, or other contrivance. In every instance the person, firm or corporation to whom such Permit to Operate is issued shall be and remain responsible under these Rules and Regulations for each and every instance wherein emission standards are exceeded by the article, machine, equipment, or other contrivance described in the Permit to Operate, and the face of issuance shall not be a defense to or mitigation of any charge of violation. Issuance of a Permit to Operate pursuant to these Rules and Regulations does not release the permittee of the responsibility of any and all other applicable permits and authorizations issued by other local governmental agencies.
