

To: Northern Sierra Air Quality Management District Board of Directors

From: Gretchen Bennett, Air Pollution Control Officer

Date: June 25, 2018

Agenda Item: IV.A

Agenda Description: Approval of the Term Renewal of Hearing Board Members; Tina Venable, Fred Hock and Tim Corkins

Issues: The Air District's Hearing Board is composed of five members: a lawyer, a doctor, an engineer, and two public members. The Hearing Board serves various functions: It has sole authority to grant a variance, allowing a company to continue operating in violation of a District rule while the problem is being corrected; it can hear requests for appeal of decisions rendered by the APCO, either from industry or a private citizen; it can issue abatement orders; and revoke a source's permit.

The following current Hearing Board members have agreed to serve another three year term:

Tim Corkins (Public) was originally appointed on February 23, 2004 and is the CEO of Z.A.P. Manufacturing in Grass Valley. He is also a member of the Board of Directors of the Nevada County Economic Resource Council, and holds the position of Treasurer. Mr. Corkins has agreed to serve for another three year term.

Fred Hock (Public) was originally appointed on December 14, 2000. He is a self-employed owner of an engineering firm. Fred could also fulfill the engineer requirement, if needed. Mr. Hock has agreed to serve for another three year term.

Tina Venable, RN, PHN III (Medical) was originally appointed on January 25, 2010. Ms. Venable has agreed to serve for another three year term.

Requested Action:

1. Approve or deny the renewal of term for Tim Corkins, Fred Hock and Tina Venable from June 25, 2018 to June 25, 2021.

ROLL CALL VOTE REQUESTED

UPDATED 5/23/18

To: Northern Sierra Air Quality Management District Board of Directors

From: Gretchen Bennett, Air Pollution Control Officer

Date: June 25, 2018

Agenda Item: IV.B

Agenda Description: Public Hearing for District's FY 2018-2019 Capital and Operating Budget

Issues:

Operating Budget

Overall, Revenues exceed Expenditures by \$168,725. There is an increase of \$34,945 of predicted revenue from last year's budget. The most significant increase in predicted revenue is predicted by an increase in vehicle registration fees, resulting in a \$40,000 increase in DMV fees.

There is an estimated increase of total expenditures from the previous fiscal year of \$28,571. The increase is primarily due to an increase of \$9,368 in the Salaries and Benefits object level. The District has also added the expense of paying for an accounting professional, estimated at \$15,000.

Restricted Budget

The Restricted Grants Budget is solely for pass-through grants from the State of California or the Federal Government (U.S. Environmental Protection Agency) to reduce air pollution emissions in areas where public health is most impacted. The District will be administering this budget through a variety of grant programs, incentives, rebates and public education in cooperation with other local agencies and businesses. For a detailed breakdown of all line items for the Restricted Grant Budget, please refer to the restricted budget spreadsheet.

Requested Action:

1. Open a public hearing to receive comments on the District's Preliminary FY 2018-2019 Budget
2. Provide direction to staff on Preliminary FY 2018-2019 Budget

**FISCAL YEAR 2018/2019
CAPITAL BUDGET
Preliminary**

June 25, 2018

EXECUTIVE SUMMARY

The District's Capital Budget is comprised of two major components - 1) the Restricted Grants Budget and the 2) Operating Budget. Each budget has two separate fund accounts to facilitate the tracking of funds in both budgets and to allow the public better comprehension of the District's overall capital budget. A line-item spreadsheet of both the Restricted and Operating Budgets follows.

RESTRICTED GRANTS BUDGET

The Restricted Grants Budget is solely for pass-through grants from the State of California or the Federal Government (U.S. Environmental Protection Agency) to reduce air pollution emissions in areas where public health is most impacted. The District will be administering this budget through a variety of grant programs, incentives, rebates and public education in cooperation with other local agencies and businesses. For a detailed breakdown of all line items for the Restricted Grant Budget, please refer to the restricted budget spreadsheet.

AB2766 Grant Programs

The District administers the State's AB2766 DMV surcharge grant money to worthwhile projects throughout all three counties of the District. This funding comes from a DMV surcharge fee for each registered vehicle in each county. Nevada and Plumas County charge a fee of \$4/vehicle. Sierra County charges a fee of \$2/vehicle.

Project proponents go through a sometimes competitive process to request full or partial sponsorship for projects which reduce vehicle emissions. \$219,134 of AB2766 funding is slated for approval to be used during Fiscal Year 2018/2019 for projects throughout all three counties. Final grant approvals will be made in September or October 2018. After the Board allocates funds for individual AB projects, any funds which are not allocated to a project go into each county's AB 2766 total allocation account as carryover. These amounts will be added back in to each county's AB allocation in time for the following year's Board approval of projects.

In addition to the FY 2018/2019 AB projects, there is \$208,399 expected to be expended for various encumbered projects. These funds are earmarked in the Restricted Grants Fund Balance.

In 2016, the Board allocated 33,211 of AB2766 funds to Account # 580-200-93 (Portola PM Mitigation). Additionally, during FY 2017-2018, the Board approved a transfer of the remaining \$5,499 from Account # 588-200-39 (Portola Woodstove Mitigation) to Account # 580-200-93 to be utilized in a woodstove changeout program in the Portola area.

AB923 DMV Surcharge Fees and Programs

AB923 is only implemented in Plumas County. This funding comes from a DMV surcharge fee of \$2 per each vehicle registered in the county. The District receives 6.25% as an administrative fee. This year, the District expects to receive approximately \$50,000, \$3,125 is utilized for administrative funding. This funding is to be utilized for replacing old diesel school buses per the state's Lower Emission School Bus program or for reducing heavy duty diesel emissions, similar to the Carl Moyer program. Recently the state has approved that this funding can also be utilized for infrastructure for alternatively fueled, low emission school busses. The current fund balance of AB923 funding is \$170,800 providing a total of \$220,800 available for expenditure during FY 2018/2019.

Carl Moyer Heavy Duty Diesel Emission Reduction Program

The District administers the State's Carl Moyer Heavy Duty Diesel Program throughout all three counties in the District. This program is intended to provide incentives to owners of heavy duty diesel engines to retrofit these engines to lower emitting models. This is easily one of the most cost-effective and pollution reducing programs that the State sponsors and the District administers.

For fiscal year 2018/2019, the District expects to receive revenue of Carl Moyer funding of \$200,000. The District receives 12.5% administrative fee, leaving \$175,000 for the grant program and \$25,000 administrative fee which is revenue for the internal operating budget. The current fund balance amount of Carl Moyer funding is \$223. An estimate of \$1,000 is expected to be earned on the interest, which goes back into the program. This provides a total \$176,223 available for expenditure during FY 2018/2019.

EPA's Targeted Air Shed Grant

The Air District was approved for a \$2.48 million grant from the U.S. Environmental Protection Agency (U.S. EPA) to reduce air pollution from residential woodstoves. The grant is part of the U.S. EPA's 2015 Targeted Air Shed Grant Program intended to improve air quality in areas of the U.S. with the highest levels of pollution.

In January 2015, the U.S. EPA designated the City of Portola and surrounding parts of Plumas County as a federal nonattainment area for the annual PM2.5 health-based standard. PM2.5 is the fine particle pollution found in smoke. Studies indicate that the main source of smoke in Portola is from residential woodstoves and fireplaces.

U.S. EPA grant funds are administered by the Air District and the California Air Resources Board for a five-year voluntary residential wood stove replacement program to encourage owners to replace older wood stoves with cleaner burning devices and significantly improve air quality and public health in the Portola area.

This will be a five year program (2016-2021) based upon a reimbursement basis from EPA. Estimates were based upon how much would be spent and reimbursed for each of the five years. The amount of \$1,992,000 for woodstove replacements in the nonattainment area is not to be exceeded over five years. The district estimates that approximately \$398,400 per year will be expended to replace stoves in the nonattainment area. Additionally, the District has been awarded up to \$259,136 for administrative use over the five year period. The District estimates approximately \$55,000 per year will be reimbursed for administrative uses annually.

H&S Woodstove Mitigation Fund

EPA had a settlement with H&S which required H&S to pay a local air district \$400,000 to be used for a woodstove changeout program in a federal nonattainment area. EPA referred H&S to Northern Sierra Air District. An agreement was approved and ratified by the Air District Board during a March 2016 Board meeting. The District had a one-time revenue of \$360,000 deposited into the District's restricted account. Additionally, the District received a one-time revenue of \$40,000 to be deposited into the District's operating budget during FY 2015/2016. Although the district received the funds during FY 15/16, the expenditure of the \$360,000 of funds will occur during FY 17/18. Currently there is 180,773 remaining in this account, or enough to supplement the change out of approximately 200 stoves.

Woodsmoke Reduction Program

The Woodsmoke Reduction Program (Program) is part of California Climate Investments, a statewide program that puts cap-and-trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment—particularly in disadvantaged communities. Assembly Bill 1613 committed \$5,000,000 in funding for replacing uncertified, inefficient wood burning devices with cleaner burning and more efficient devices. Statute establishes investment minimums for disadvantaged and low-income communities and low-income households. The Program is designed to help households replace an uncertified wood stove or insert used as the primary source of heat with a cleaner burning and more efficient device. The California Air Resources Board (CARB) developed Program Guidelines for the implementation of the Program. The Program, implemented by CARB, will be administered by the California Air Pollution Control Officers Association (CAPCOA) in coordination with local air quality management districts. The Northern Sierra Air Quality Management District (District) will administer Program projects located in Plumas, Sierra and Nevada County. The District has \$225,000 to administer this program and approximately \$1,000 is expected in interest. The interest is to be added to the program expenditures. The District is allowed up to 10% in admin costs, or approximately \$21,375.

17

OPERATING BUDGET

The second major portion of the District's overall capital budget is the internal Operating Budget which is outlined in detail in the Operating Budget spreadsheet.

Operating Revenue

Overall, Revenues exceed Expenditures by \$168,725. There is an increase of \$34,945 of predicted revenue from last year's budget. The most significant increase in predicted revenue is predicted by an increase in vehicle registration fees, resulting in a \$40,000 increase in DMV fees. A new, one-time funding source from AB617 (\$15,000) and AB197 (\$7,500) was committed to the District from the California Air Resources Board. Last, the Air District is implementing a Woodsmoke Reduction Program as part of the California Climate Investments, a statewide program that puts cap-and-trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment—particularly in disadvantaged communities. The District is allowed up to 10% in admin costs, or approximately \$21,375.

AB 2766 revenue is 40% of total operating revenue. This revenue is used internally for activities that are related to clean air planning and technical studies necessary to implement the California Clean Air Act, and these technical activities should be funded by AB 2766 funds proportionate to the relative contribution of mobile source emissions.

General Administration, the Smoke Management Program, the Planning Program, and the Air Monitoring Program don't have adequate fees to cover costs, and so are supported with State Subvention, county contributions, and miscellaneous revenue line items.

Operating Expenditures

There is an estimated increase of total expenditures from the previous fiscal year of \$28,571. The increase is primarily due to an increase of \$9,368 in the Salaries and Benefits object level. The District has also added the expense of paying for an accounting professional, estimated at \$15,000.

Fund Balance

The District has committed to adding \$50,000 annually to the District's Other Post-Employment Benefits (OPEB) account. This account will increase by \$50,000 annually as required by GASB45. GASB 45 determines the annual OPEB financial obligations based upon the current number of eligible employees and retirees. The net OPEB obligation at the end of the year 2017 was determined to be \$416,993. The District's financial auditor recommended and the Board of Directors agreed that the District

expend at least \$50,000/annually and add it to the Fund Balance specific to account until the obligation is fulfilled. The District plans to expend another \$50,000 during FY18/19, bringing the total OPEB amount to \$200,000. This expense of \$50,000 will be repeated annually until the District's annually determined OPEB obligation is met.

The District provides certain postretirement healthcare benefits, as established by Board Policy, to eligible employees through a single-employer plan governed by the Public Employees' Medical & Hospital Care Act (PEMHCA) and administered by the District. Employees who retire from the District shall be eligible to be enrolled in a PERS-provided health insurance plan. If the retiree is enrolled in a PERS-provided health insurance plan, the District shall pay 100% of the first \$9,600 of the retiree's annual premium. Employees hired after July 1, 2014 shall still be eligible to be enrolled in a PERS-provided health insurance plan upon retirement, but the District shall pay 0% of the retiree's annual premium, upon retirement.

The District has two separate accounts to express health insurance expenditures. Account #10-5017 is for retired employees, and Account #10-5016 is for current employees. However, two current employees have elected not to utilize the PERS-provided health benefits plan. According to District Policy, in recognition of the subsequent cost savings to the District, the District will pay the employees 40% of the premium costs saved by the District, or \$3,840, whichever is less. Since there are two employees electing not to utilize the PERS provided plan, this total amount is \$7,680. This \$7,680 expenditure is not included in the Health Insurance expenditure, instead it is included in Account #10-5002 Permanent Salaries.

1. Equipment Replacements

\$4,000 will be expended to purchase office equipment such as two new computers. The District keeps a list of equipment and their respective depreciation rates.

2. Air Monitoring Program

The Air District receives \$59,500 from the Environmental Protection Agency for the continued operation of the District's Federal Reference Method (FRM) Network for particulate matter. The District will also continue to pay rent for its monitoring laboratory and purchase miscellaneous equipment to continue to run its existing air quality monitoring network. The District has \$18,053 from the EPA to spend on web cameras and monitoring upgrades at all the air monitoring sites.

3. Public Education

The District will utilize \$5,000 to fund its public education program for FY 2018-2019. This includes purchasing ads for emission reductions, incentive and grant programs.

Summary

Expected operating revenue exceeds expected operating expenditures by \$168,725. This includes the \$50,000 annual expenditure to the OPEB fund balance account. The funds received in previous years are encumbered in the District's fund balance accounts, and will be utilized to demonstrate a balanced budget in the final summary, if needed. Although the preliminary budget demonstrates an overall increase to the District's Fund Balance by revenues exceeding operating expenditures by \$168,725, this is crucial to the continuance of the Air District's services. The Air District has experienced a steady decline in its fund balance in previous years to the point where it was almost imperative to employ drastic reductions in expenditures. This predicted increase in the fund balance will assist the District to continue its services in case of any unexpected decreases in revenue in the future.
