Grass Valley, CA 95945

Dear Members of the Board,

I am writing on behalf of the County of Nevada's Recreation Program, under the Community Development Agency, to provide an update on the "Parking and Multimodal Transportation Improvements" project, funded by the AB2766 grant from NSAQMD.

The project deliverables include:

1. A park-and-ride facility at the Rood Center.
2. Enhanced signage and wayfinding at the Rood Center, including Nevada County Trail Finder information on kiosks.
3. The launch of an employee e-bike fleet program to model and test micro-mobility options.

We are pleased to report that progress on these initiatives is moving forward, and the grant funds have been encumbered. However, due to several challenges—including our position in the queue for county infrastructure projects, staffing changes, and extended procurement timelines—we have encountered delays in implementation.

In light of these factors, we respectfully request an extension of the project implementation timeline to **August 30, 2025**. These projects are important not only for the community's growth and accessibility but also for enhancing air quality by promoting increased bicycle and pedestrian use among residents and visitors.

We greatly appreciate your consideration of this request and look forward to your continued support.

Best regards,
Shavati Karki-Pearl
