

March 18, 2020

Dear Friends and Neighbors,

During the current public health event, Air District staff will be limiting interaction with the public. For public safety, our office doors will be closed March 18, 2020, but staff will remain available to help you with essential program functions. Please call our office at (530) 274-9360 and leave your name, phone number and a detailed message. We will be checking messages frequently and route your inquiry to an employee available to respond.

This concierge service can support many District functions, but we may require more time than typical to process requests and maintain services. We kindly ask for your patience.

We encourage everyone to be safe, wash your hands and maintain social distancing (keep 6 feet away from all others).
